Dear Mark,

Enclosed is a copy of the applicable Maryland code.

It was Gary Mack's information shortly after we spoke that Richard was to have been fired this morning. He did not want to identify his source. My guess is FBI, Revell or Rookstool. But if he is fired that does not alter the problem we face and I hope I can be fully informed for when it will do some good.

The young woman Gary knows has been working for Harry down there and perhaps is the one who visited Mary is Susan Sheckley (phon). Gary says that Dave Perry is keeping fully informed on that aspect.

If anyone called with any news I was away for three hours and could not answer the phone.

Thanks and best wishes,

Andy
